Education

HKA - Hochschule Karlsruhe , Master (M.Sc.) in Business Information Systems	Mar 2024 – Nov 2025
• Final grade: 1.4 • Master thesis: Development of a RAG-based Chatbot within a Value-Based Engineering Framework	
HKA - Hochschule Karlsruhe , Bachelor (B.Sc.) in Industrial Engineering	Sept 2019 – Jan 2024
• Final grade: 2.0 • Bachelor thesis: Implementation of a Web-Based User Interface Using Design Patterns	
xpand , Gap year in Scotland	Sept 2017 – Jun 2018
• I worked as a teaching assistant and attended seminars about personal and professional development	
Adolf-Schmittthenner-Gymnasium , A-levels	Sept 2009 – Jul 2017
• Final grade: 1.8	

Experience

Software Engineer , INIT Innovation in Traffic Systems	Dec 2025 – now
• Software Engineer (Java) specializing in stream processing, cloud, and DevOps, developing scalable cloud-native microservices for real-time (Apache Kafka) and statistical data processing • Responsible for architecture design, performance optimization, Kubernetes deployments, CI/CD pipelines, and monitoring of production systems	
Working student , Disy Informationssysteme GmbH	May 2025 – Nov 2025
• Tooling for software development and automation of build processes using Maven and Docker	
Working student and Bachelor's degree candidate , SEW-EURODRIVE GmbH	Aug 2023 – Mar 2025
• Development of software prototypes with JavaScript and ThreeJS	
Student assistant , ILIN (Research Institute at HKA)	Aug 2022 – Aug 2023
• Development of software applications for research purposes in the field of NLP and AI with Python	
Computer Science Tutor , HKA - Hochschule Karlsruhe	Mar 2022 – Jul 2023
• Organisation and implementation of exercise units in the Computer Science B module using Java	
Intern , Daimler Truck	Mar 2022 – Jul 2022
• Creation of reports and automation of processes using the VBA scripting language	

Projects

Movie Base (Python, JavaScript)	GitHub
• A movie management app was implemented with a search function, rating system, and review functionality	
Szeneneditor (Angular, ThreeJS)	GitHub
• An interactive 3D scene editor for modeling and placing objects	

Skills

Programming languages/technologies: Java, JavaScript, TypeScript, Python, C#, Angular, Apache Kafka

Tools: Git, Maven, CI/CD, Docker, Cloud (Azure), Kubernetes, Datenbanken (SQL/NoSQL)

Interests: Movies, Sport, Playing the piano

Certificates

Agile Software Engineering Student Edition: Workshop on principles of software engineering (andrena objects)

Microservices with Spring Boot: Workshop on principles of microservices (andrena objects)

CS50 - Introduction to Computer Science: Online course by Harvard University

Business and Technical English (C1): English course at Karlsruhe University of Applied Sciences

Seminar Digitaler Zwilling: Creation of a digital twin in Python (Hochschule Offenburg)
